It is important to always use the combination of the voice call, location reported by the device, and user's home address to assess the situation and confirm location. Always verify location during the call

- Functioning of the device and service is subject to wireless coverage and proper charging of the device at any given time
- The device is for use with monthly services offered by Caretrak only. The device is not compatible and will not operate with any other service provider. Tampering or removal of the SIM card included in the device will affect operation of the device and service
- Your device is water-resistant and can be worn in the shower. Do not fully submerge the device in water

Products include Devices and Services. “**Devices**” refers to all equipment you buy, rent, lease, etc. from us to access and use the Services, and “**Device**” refers to any single one of these Devices. “**Services**” refers to all service offers, features, applications, information on services that we have communicated to you, and terms in the service plans describing your plans and services, and “**Service**” refers to any single one of these Services.

Throughout these Terms and Conditions, “**you**” or “**your**” refer to the person buying and/or using a Device or Service, as well as any third party end user for whom a person buys and/or activates the Products for; and “**we**”, “**our**”, or “**us**” refers to Evolution Wireless.

These Terms and Conditions together with any current service plan, features brochures, or other materials incorporated by reference including information on caretrak.ca (“our website”) and applicable to the Products (collectively, the “**Materials**”) constitute the complete terms (the “**Terms**”) that apply to your use of the Products. If there is any inconsistency between the Materials and these Terms, these Terms will prevail. If you do not agree with these Terms, please refrain from using the Products. Who are the Parties to these Terms?:

These Terms represent a legal agreement between Evolution Wireless and you. You must be at least 18 years old and have authority to consent to this Agreement, and consenting to this Agreement will not violate any other agreement. You must be a resident of Canada.

If you have purchased, opened and/or activated the Products for use by a third-party end user, you acknowledge having accepted this Agreement on that person's behalf.

If you are an agent or employee of an entity purchasing the Products (a “**Commercial Client**”), you represent and warrant being duly authorized to accept this agreement on such entity's behalf and to bind such entity; and such entity has full power, corporate or otherwise, to enter into this agreement and perform its obligations hereunder.

Important Notes About Using the Products:

- The Devices are not medical devices, and the Products are not meant to be a substitute for medical care and attention.
- It is your responsibility to assess whether the Products are appropriate based on your medical condition, use with other devices including pacemakers, general health and lifestyle. It is also your responsibility to assess whether the Products are appropriate given the network coverage, GPS limitations in particular areas, and battery life.
- If applicable, it is your responsibility to ensure that the Device is worn properly, that you monitor the battery life, the connectivity,

and the overall ability of the Device to function.

- If using the Caretrak Mobile Defender, ensure that the SOS Call Button on the Device is pressed manually until it vibrates in order to initiate the applicable call and events for response
- Functioning of the Products is subject to wireless and GPS network and services. Connection of calls and/or sending of information that use these networks may fail or not be accurate at times.
- If using a Product with fall detection service, automatic detection of a fall is not guaranteed and not 100% reliable. The Product may have a feature that gives warning through vibration and/or sound that a fall was detected and allows you to cancel the applicable call and events for response by pushing the SOS Call Button. This is intended to prevent false alarms and initiation of events for response. **Please note that pushing the SOS Call Button once a fall has been detected will stop initiation of events for response**
- If activating and using services in the United States of America, Device will be roaming and wireless network service will be provided by third party US-based network service providers. The wireless network service may be subject to possible delays and issues not in our control. Other cellular features such as call display and sending and receiving of text alerts may be limited and subject to wireless services of alert recipient devices. Emergency Response 911 services are limited to ambulance services only.

The Products are not a Substitute for Caregiver Contact or for 911

You acknowledge and agree that the Products are not a replacement for your regular contact with your caregivers and doctors. The Products are also not a replacement for placing an emergency call using a regular landline or cell phone. Other means of communication, if available in the circumstances, should be used even in an emergency situation.

The Device:

Where applicable, each Device is assigned a ‘cellular phone number’ (the “**Device Number**”) in order to be able to use the Device on the wireless network. The Device Number and area code may not match the area code of your address.

Your Device Number is designed exclusively for use with Services provided by Evolution Wireless. You have no proprietary right, ownership or other rights to the Device Number assigned to you. Evolution Wireless will notify you if there is a need to change or reassign your Device Number.

Where applicable (ex. Family Response Service), the Device is programmed to call an outbound phone number that you have provided to Evolution Wireless. It is your responsibility to ensure that the phone number you have provided is accurate, able to receive calls and that the call recipient authorizes you to have calls directed to that phone number. Evolution Wireless is not responsible for the implications, response or actions generated from calls directed to this phone number. Evolution Wireless reserves the right to remove programming of any phone number at any time

Where applicable, the Device may have the functionality to receive inbound calls. Inbound calls may be restricted based on the Services you have selected (ex. Emergency Response Service). Evolution Wireless reserves the right to restrict inbound calls at any time

The Services

Evolution Wireless works with Third Party Service Providers to provide the Products. “**Third Party Service Provider**” means any person, company, or entity who may provide any service, equipment, or facilities in connection with Evolution Wireless, including, but not limited to, wireless service providers, GPS service providers, fall detection service providers, manufacturers,

suppliers, alarm monitoring centres that may access public safety answering points ("PSAPs"), and emergency responders (such as police, fire and ambulance). Since the services provided by Third Party Service Providers are not in the control of Evolution Wireless, you agree and understand that Evolution Wireless in no way guarantees the performance and delivery of services of Third Party Service providers.

Wireless Network

Evolution Wireless does not guarantee the availability of the wireless network. The Products may be subject to certain equipment and compatibility limitations including memory, storage, network availability, coverage, accessibility and data conversion limitations. Services (including without limitation, eligibility requirements, plans, pricing, features and/or service areas) are subject to change without notice. When outside of coverage area, the functionality of the Devices and/or the Services may be limited or unavailable. As a consequence, functionality and features that require wireless network, including the ability to connect a call or send information, will depend, in part or whole, upon variables that may be beyond the control of Evolution Wireless or its Third Party Service Provider.

Location Service

Evolution Wireless does not guarantee the availability of the GPS network. GPS technology for location services works best when there is line-of-sight visibility between the chipset contained in the Devices and the GPS satellites orbiting Earth. As such, GPS technology may not provide a location fix and/or an accurate location fix when: 1) You are indoors or in a location where terrain or building materials obstruct the GPS satellite signals; and 2) GPS satellite service is interrupted or disrupted due to equipment or network limitations, atmospheric conditions, and other causes associated with the use of satellites and satellite data. As a consequence, location-finding capabilities, including the ability to locate the Device during an emergency, will depend, in part or in whole, upon variables that may be beyond the control of Evolution Wireless or its Third Party Service Provider.

You are responsible for ensuring that the Device is properly charged and powered on as low battery may result in the inability to place a call and/or properly locate you in the event of an emergency.

Since the Products are designed to operate in a mobile environment, the ability to provide accurate location information in the absence of accurate GPS fix locations will depend upon the availability and accuracy of the user to provide information. The Device user may provide location information orally during the emergency. Evolution Wireless is NOT responsible for inaccurate location information, whether provided by the Device user and/or calculated based on the GPS chipset in the Device.

You understand and agree that Evolution Wireless does not guarantee the wireless network, the GPS network location services and fall detection services used with the Products, and is not responsible for the sending and receiving and/or responding to events (ie. calls, alerts) generated by the Products and you understand and agree that there are technical and service limitations to wireless networks, GPS network location services, and fall detection services as well as limitations to emergency response units you expressly agree that any such limitations are not the fault of Evolution Wireless.

You must notify us immediately if your Primary Email Address or phone number(s) change. You agree to regularly check your Primary Email Address for communications from us.

Access to Account:

You expressly authorize us to act upon the direction of a person you have authorized to make changes to your account using authentication information that we determine is appropriate. Such action may include providing information about the account or making changes to your account.

Information Tracking and Sharing:

Evolution Wireless through a Third Party Service Provider collects various information about you and your use of the Products, including but not limited to information about the approximate location of your Device in relation to the GPS. You agree that all such information may be provided to any contacts you have designated through any applications related to the Products, as applicable based on the service plan you have subscribed to, as we reasonably believe is necessary or would be helpful to them in providing you with assistance.

In addition, we use your location information, as well as other usage and performance information to provide you with the Services. It is your responsibility to notify users on your account that we may collect and use location information from the Device. Please visit caretrak.ca/privacy to review the associated Privacy Policy to learn how Evolution Wireless handles your personal information, including location information.

You understand and agree that in conjunction with the provision of services, we may monitor and/or electronically record cellular transmissions related to the Services, as well as conversations with you or others. That information and/or recordings or transcriptions of cellular transmissions or conversations may be shared with emergency responders or your emergency contacts as we reasonably believe is necessary or would be helpful to them in providing you with assistance.

You agree that Evolution Wireless is not responsible for the loss or disclosure of any sensitive information that you transmit.

Evolution Wireless’ Right to Change the Agreement and your Associated Rights

We may change any terms, conditions, rates, fees, expenses, charges or method of calculating charges regarding a Service at any time. We will provide you with notice of material changes either in your monthly bill or separately. If we increase the price of any of the Services to which you subscribe, beyond the limits set forth in your Agreement, we will disclose the change at least one billing cycle in advance (either through a notice with your bill, through an e-mail to the e-mail address that you have identified to us at the time of purchase, as amended by you from time to time, or otherwise).

In response to our changes to the Agreement as described above, you may terminate this Agreement as it applies to a Service without paying an Early Termination Fee only if you: (a) call us within 14 days after the date you are notified of the change; and (b) specifically advise us that you wish to cancel a Service because of a material change to the Agreement. If you do not cancel Service within the 14-day period, an Early Termination Fee will apply if you later terminate such Service before the end of any applicable Term commitment.

Charges and Billing:

You are responsible for paying all charges for, or resulting from, the Services provided under this Agreement, including any upfront or activation fees that may apply. You will receive monthly bills that are due in full.

Charges may include, without limitation, monthly service charges; overage, long distance, roaming charges associated with wireless service; activation, equipment, and late payment charges; surcharges; optional feature charges; reconnection and reactivation charges; applicable federal, provincial, and municipal taxes (however designated), permitting and regulatory fees, and any other fees and or surcharges or assessments of any municipal, local, provincial, and federal government.

If you have selected a plan with an allotted number of voice calling minutes of usage per month, you are subject to additional charges for minutes used above the allotment of minutes. You will be charged \$0.40/minute (rounded up to minute) for outbound and inbound calls within Canada. Charges will be applied to your bill and will appear in the billing cycle up to 3 months from usage.

We will use your billing address to determine which jurisdiction’s taxes and assessments to collect. Prices may vary by market. You will be responsible for paying any government imposed fees and taxes that become due retroactively.

Where applicable, persons completing inbound calls to the Device’s number are subject to charges from their service provider and long distance charges may apply based on area code boundaries. Evolution Wireless is not responsible for these charges.

This bill may also include other important notices such as changes to this Agreement, to your Service, legal notices, etc.. You are responsible for providing a valid email address for communication. You agree to assume all responsibility for payment and accept the monthly bill as a method for notifying you of important notices.

Upon your request, we will send a paper bill to the billing address that you have provided to Evolution Wireless

Payment: Late Payment Fee

You agree that for if you do not remit payment on time or if you pay less than the full amount due, Evolution Wireless reserves the right to charge a late fee of \$5.00 for each month that payment is not received or interest on the unpaid amount of 2 % per month. Evolution Wireless also reserve the right to refer your account(s) to another party for collection, and to impose the maximum amount permitted by applicable law.

You agree that Evolution Wireless may contact you to collect unpaid past due charges using any mailing address, telephone number, wireless number, or any e-mail address, that you have provided, or may in the future provide, to Evolution Wireless. You agree that in addition to individual persons attempting to communicate directly with you, any type of contact described above may be made using pre-recorded or artificial voice messages delivered by an automatic telephone dialing system, pre-set e-mail messages delivered by an automatic e-mailing system, or any other pre-set electronic messages delivered by any other automatic electronic messaging system.

We do not waive our rights to collect the full balance owed to us by accepting partial payment. We will apply the partial payment to the outstanding charges in the amounts that we deem appropriate.

Billing Disputes
